

1.3 Empathy Map Canvas

Persona 1: Student (Self-Service Persona)

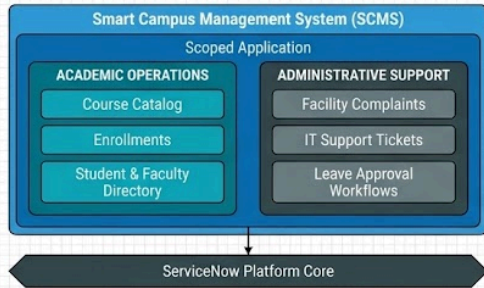

- Says: "I don't know where my leave request is pending or when my hostel issue will be fixed."
- Thinks: "This manual paperwork process takes too long. I wish I could track everything online."
- Does: Fills out physical forms, visits administrative offices in person, and sends follow-up emails.
- Feels: Anxious about missing academic deadlines or missing leave permissions.
- Pains: Lost physical forms, zero status tracking, long waiting times.
- Gains: Self-service portal submission, instant status updates, automated email notifications.

Persona 2: Faculty / Department Head (Approver Persona)

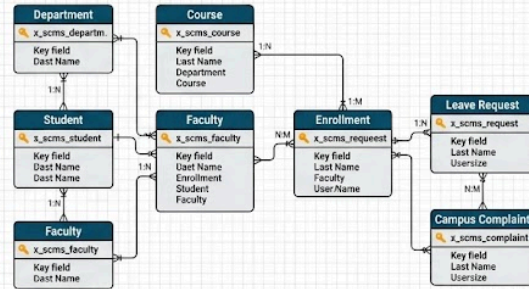

- Says: "I spend too much time reviewing paper applications and tracking leave balances manually."
- Thinks: "I need an easy way to approve student requests without dealing with physical paperwork."
- Does: Manually reviews physical applications, checks spreadsheets, and signs forms.
- Feels: Overwhelmed by repetitive administrative overhead.
- Pains: Inaccurate balance records, untracked approval history, delayed request processing.
- Gains: Automated single-click approval queues, real-time balance calculations, consolidated student profile views.
